

TSS BECAUSE SERVICE IS AS IMPORTANT AS THE PRODUCT

Maintenance reduces the costs of unplanned downtime, optimizes machine performance, and extends their service life.

Anticipate potential plant shutdowns!

Our TSS service is at your disposal to handle your repairs, assemblies, commissioning, maintenance, and everything you need to make your work life easier.

Maintenance of all the agitators in your factory, from VK and other brands.

TECHNICAL ASSISTANCE

- Agitator installation.
- Assembly and replacement of mechanical seals.
- Commissioning.
- Corrective maintenance: scheduled repairs and breakdowns.

Contact TSS!

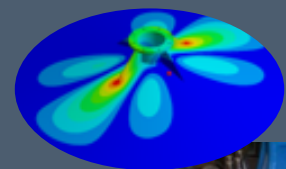

PREVENTIVE MAINTENANCE

- General equipment inspection, vibration measurement, bearing diagnostics, sound check, thermography, oil level check, on-site visits to the factory, and inspection report.
**Spare parts are not included if needed.*
- Annual contracts available.

TECHNICAL SUPPORT

- QR code manuals for the machine.
- Recommended spare parts.
- Equipment upgrades.
- TSS inquiries and maintenance recommendations.
- Ansys simulations for structural resistance calculations of tanks.
- Circular economy with machine recycling at the end of its lifecycle.

Maintenance is an investment!
